

— FANCY BOHEME JEWELRY —

OCTOBER
COLLECTION

fall 2020

INSPIRATION

The embrace of rich blacks, soft browns and iridescent glimmer — a departure from my usual pastels in every nuance of rainbow color; the October collection is an invitation to feel restful. Deep, moody colors summon autumn's arrival and invite us to cozy up with a good read and a glass of red wine.

You'll find tiny trinkets with smoky quartz, moonstone and flashes of silver: an ode to this season's harvest moon.

FANCY BOHEME JEWELRY

Metalsmith and designer Amanda Pehrson created Fancy Boheme Jewelry in 2016 in Denver, Colorado as a fledgling hobby inspired from a love of combining disparate objects with wearable silhouettes. Over the last four years, Amanda has honed her design eye and skillset as a trained metalsmith to evolve Fancy Boheme into a line of timeless, heirloom-quality pieces. Each piece is hand-forged sustainably from responsibly sourced stones + diamonds, recycled metals and plastic-free packaging.
