

FANCY BOHEME JEWELRY

SEPTEMBER  
COLLECTION

fall 2020

# INSPIRATION

---

A collection that captures the tide of seasonal change, through the colors of the sea and soft metal finishes. Echoes of ever-shifting waves and pools — the same renewing spirit found in the fresh chill that pierces autumn's evening air. We've been out in open ocean for a long, long time, friend. September's collection is full of tiny tokens — wearable mementos to remind us of the sea change we've weathered through, and all of the future's infinite tides to move us forward.

## FANCY BOHEME JEWELRY

---

Metalsmith and designer Amanda Pehrson created Fancy Boheme Jewelry in 2016 in Denver, Colorado as a fledgling hobby inspired from a love of combining disparate objects with wearable silhouettes. Over the last four years, Amanda has honed her design eye and skillset as a trained metalsmith to evolve Fancy Boheme into a line of timeless, heirloom-quality pieces. Each piece is hand-forged sustainably from responsibly sourced stones + diamonds, recycled metals and plastic-free packaging.
